NITA SHAVE 2015

In memory of my sister Juanita who passed away in 2008, I decided to lose my hair and raise money for Breast Cancer Care WA, a wonderful organisation that provides support for those with breast cancer and their families.

What I didn't know was that 59 other people would join in the day at Peel Ale House in Halls Head and 8 of us would lose our hair together and one other brave woman had her long hair chopped short. A wonderful show of support for such a great cause. Together we raised over \$1800 and a fantastic day was had by all.

Thank you to everyone that donated to the cause and those that donated items for the raffle.

A big thank you to the wonderful entertainer James Wilson, who kindly donated his time on the day and also Davina Eden-Austen who was our hairdresser.

So yes, the CRC manager is now bald and I'M LOVIN' IT!! Thankfully it's not winter and my new hair style is a welcomed change in this summer heat.

Grant Sourcing & Crowdfunding

Grant money & Sponsorship is NOT only for charities and NFP's
Did you know your business may be eligible for a grant or loan ranging from
\$500 to \$2 million? Come and find out more at this informative seminar...

In order to boost the Australian economy and assist small businesses, the Federal government allocates a budget in the form of government grants, business loans and assistance programs.

- Business Development and Standard Business Grants
- Culture & Media Business Grants
- Film and Documentary Grants
- Export Business Grants
- Finance Business Grants
- Green Program Business Grants
- Research & Development Business Grants
- Start-up Business Grants

What is Crowdfunding for businesses?

Find out how the use of small amounts of capital from a large number of individuals can finance a new business venture.

- Crowdfunding makes use of the easy accessibility of vast networks of friends, family and colleagues through social media websites like Facebook, Twitter and LinkedIn to get the word out about a new business and attract investors.
- Crowdfunding has the potential to increase entrepreneurship by expanding the pool of investors from whom funds can be raised beyond the traditional circle of owners, relatives and venture capitalists.
